Why Apple Pay
Key Benefits

Grow your business with Apple Pay.

Apple Pay boosts conversion rates and user adoption by making bill payments easier than ever. It's a simple and secure way for online customers to speed through bill payment and for online billers to get paid faster. It's a win for customers and a win for billers.

Increase Conversion Rates
Apps and websites enabled with Apple Pay see higher conversion rates.

Get Paid Faster
Customers can complete bill payment with a single tap. No lengthy forms are necessary.

Support All Payment Use Cases
One-Time bill payments, recurring bill payment, and scheduled bill payment are available with Apple Pay.

Improve Privacy and Security
Every transaction requires authentication with Face ID, Touch ID, or passcode.

Enhance Convenience
With a high satisfaction rate, Apple Pay drives stickiness and customers are more likely to come back.
Crafting Communications
Marketing Roadmap to drive adoption of Apple Pay

1. Launch Apple Pay

2. Engage Existing Billers

3. Attract New Billers

4. Onboard Newly Enabled Billers

Integrate Apple Pay on your platform

Optimize communications with A/B testing
Marketing Activities

After integrating Apple Pay on your platform, design a lifecycle marketing strategy to launch, attract, engage, and onboard billers. Continuously test and optimize to boost effectiveness.

1. Launch Apple Pay
   Announce that Apple Pay is now available on your platform
   Learn how >

   • Dashboard (Interstitial, Banners) >
   • Email / Newsletter >
   • Social Media >
   • Website (Landing Page, FAQs)>
   • Blog

2. Engage Existing Merchants
   Motivate billers to enable Apple Pay
   Learn how >

   • Dashboard (Interstitial, Banners) >
   • Email / Newsletter >
   • Social Media >
   • Case Studies
   • Webinars

3. Attract New Merchants
   Utilize Apple Pay as a differentiator in acquisition campaigns
   Learn how >

   • Website (Banners) >
   • Sales Leads Email >
   • Social Media >
   • Digital Advertising
   • Sales Enablement Materials

4. Onboard Newly Enabled Merchants
   Encourage billers to promote Apple Pay to their customers
   Learn how >

   • Billers Guide >
   • Welcome Email >
   • Case Studies
   • Webinars

Pro Tip

Collaborate with billers on your platform to develop case studies of successful Apple Pay campaigns and share their stories in the onboarding communications.
Guidelines

Refer to these guidelines before downloading and using the templates in this toolkit.
Apple Pay Mark Guidelines

Artwork
The Apple Pay mark is available only in white with an outline rule. Other color options are not available. Do not alter the artwork in any way or create your own version of the Apple Pay mark. Use only the artwork provided by Apple.

Background color
A white or light background is preferred when displaying the Apple Pay mark. The mark can also appear on a marketing layout that features a dark background.

Clear Space
The minimum clear space for the mark is one quarter the height of the mark. Do not place graphics or typography in the clear space area.

Apple Pay with other mobile payments
To increase acceptance awareness, it is recommended that the Apple Pay mark be positioned first in an arrangement with other mobile payment marks.
Trademark and Legal Guidelines

Apple requirements
Apple Pay and the Apple Pay UI assets as described in these guidelines cannot be used in any manner that falsely suggests an association with Apple or is likely to reduce, diminish, or damage the goodwill, value, or reputation associated with Apple Pay, Apple products, or Apple itself.

Trademark attribution
Do not add a trademark symbol to the Apple Pay UI assets provided by Apple. In apps, include Apple trademark attributions wherever legal information is displayed.

In marketing communications, distributed only in the United States, the appropriate symbol (™, SM, or ®) must follow each Apple trademark the first time it is mentioned in marketing copy, for example:

Apple®
Apple Pay®
Apple Watch®
Face ID®
iPad®
iPhone®
Safari®
Touch ID®

Refer to the Apple Trademark List at apple.com/legal/intellectual-property/trademark/appletmlist.html for the correct trademark symbol.

In all regions, include the following credit line:

Apple, the Apple logo, Apple Pay, Apple Watch, Face ID, iPad, iPhone, iTunes, Mac, MacBook Pro, Safari, and Touch ID are trademarks of Apple Inc., registered in the U.S. and other countries. Touch Bar is a trademark of Apple Inc.

List only the specific Apple trademarks used in the text or audio in your marketing communications.

For more information about using Apple trademarks, visit "Guidelines for Using Apple Trademarks and Copyrights" at apple.com/legal/intellectual-property/guidelinesfor3rdparties.html

With Apple’s approval, a translation of the legal notice and credit line (but not the trademarks) can be used in materials distributed outside the U.S. Never translate an Apple trademark.

Notes
Trademark symbols do not need to be included in marketing headlines. The mark is only required the first time the name of a trademarked product appears in the text. If space is restricted, you can include the credit line on the link-to page.
Design Guidelines

**Typography**
You can update the template's default font with your brand's font. Add additional fonts using your brand's typographic standards and hierarchy.

**Images**
Start with hi-resolution images in an RGB color profile. Final output for all digital assets should be 72 dpi or 144 dpi (@2x) for retina screens. Test and be sure images are sharp at final size.

**Bleed**
Extend all images and background flood colors beyond the bounds of the template to ensure an accurate output.

**Color**
All digital content should be set in an RGB color profile space for web. Refer to and use your brand's RGB or HEX codes for color matching and accuracy.
Writing your own copy

Messaging Guideline

Keep it clear and concise.
All messaging should be simple, fun and relatable. To achieve this:

• Headlines should be purposeful and descriptive.

  Example: Get paid faster with Apple Pay.

• Subheads should be simple, informative, and to the point.

  Example: Grow your business by making bill payments easy with Apple Pay and [Platform].

• Avoid overloading too many details at once, focus on one benefit.

  Example: Increase conversion rates with Apple Pay.

Use real language.
Don’t be too formal, but keep it professional by avoiding the use of jargon.

  Example: Apple Pay is accepted here.

Prioritize the role of Apple Pay.
Whether talking about benefits, offers, or information, make sure the role of Apple Pay is at the forefront.

  Example: Grow your business faster with Apple Pay.

Make the next step clear.
Include Call To Actions that are clear, concise, and let customers know exactly what to expect.

  Example: Get the guide.
Additional Resources
FAQs

Example FAQs to share on your Apple Pay dedicated landing page or to provide to billers. Use and create more as needed.

How do I start accepting Apple Pay?

To accept Apple Pay on the web or in app, go to [platform to include instructions and link to its owned webpage with relevant information].

Are there additional fees to accept Apple Pay?

No. Apple doesn't charge any additional fees.
