Marketing Toolkit for Payment Service Providers
Welcome

This toolkit is designed to support Payment Service Providers (PSPs) in driving adoption of Apple Pay through bespoke marketing communications. It contains guidelines, tips, and templates to help create and implement marketing campaigns. The materials we’ve provided are easy to customize to fit various campaign objectives and marketing channels.

Why Apple Pay
Key Benefits

Grow your business with Apple Pay.

Apple Pay boosts conversion rates and user adoption by making buying easier than ever. It’s a simple and secure way for online shoppers to speed through checkout and for online businesses to increase sales. It’s a win for shoppers and a win for businesses.

Increase Conversion Rates
Apps and websites enabled with Apple Pay see higher conversion rates.

Faster Checkout
Shoppers can complete purchases with a single tap. No lengthy forms are necessary.

Improve Privacy and Security
Every transaction requires authentication with Face ID, Touch ID, or passcode.

Reduce Cart Abandonment
Shoppers can easily check out with Apple Pay and create an account post transaction.

Generate Higher Purchase Frequency
With a high satisfaction rate, Apple Pay drives stickiness as shoppers are more likely to come back.

Support All Payment Use Cases
Delivery, Buy Online Pickup In-Store, subscription, and split shipment are available for merchant integration.
Case Studies

Faster Checkout

“Customers love the Apple Pay experience higher in the purchase funnel. We are seeing 50% of our Apple Pay transactions direct from product pages. No data entry required, just tap to transact!”

Nick Engel, VP eCommerce North America at Lululemon
November 2019

Faster Checkout. Increased Conversions.

“Shopify launched Apple Pay for the web, and already tens of thousands of Shopify’s merchants have elected to offer Apple Pay as a means for checkout. Stores supporting Apple Pay have seen an increase in checkout conversion rate of up to 2x on mobile, and customers are able to checkout up to 60% faster with Apple Pay than with a credit card alone.”

Shopify Third-Quarter Financial Results
November 2016

The data shown is self-reported by the merchant involved in the case study. Any reproduction or use of this content is forbidden.
Crafting Communications
Marketing Roadmap to drive adoption of Apple Pay

1. Launch Apple Pay
2. Engage Existing Merchants
3. Attract New Merchants
4. Onboard Newly Enabled Merchants

Integrate Apple Pay

Optimize communications with A/B testing
Marketing Activities
After integrating Apple Pay, design a lifecycle marketing strategy to launch, attract, engage, and onboard merchants. Continuously test and optimize to boost effectiveness.

1. Launch Apple Pay
   Announce that Apple Pay is now available
   Learn how >
   • Dashboard (Interstitial, Banners) >
   • Email / Newsletter >
   • Social Media >
   • Website (Landing Page, FAQs)
   • Blog

2. Engage Existing Merchants
   Motivate merchants to enable Apple Pay
   Learn how >
   • Dashboard (Interstitial, Banners) >
   • Email / Newsletter >
   • Social Media >
   • Case Studies
   • Webinars

3. Attract New Merchants
   Utilize Apple Pay as a differentiator in acquisition campaigns
   Learn how >
   • Website (Banners) >
   • Sales Leads Email >
   • Social Media >
   • Digital Advertising
   • Sales Enablement Materials

4. Onboard Newly Enabled Merchants
   Encourage merchants to promote Apple Pay to their shoppers
   Learn how >
   • Merchant Guide >
   • Welcome Email >
   • Case Studies
   • Webinars

Pro Tip

Collaborate with merchants to develop case studies of successful Apple Pay campaigns and share their stories in the onboarding communications.
Guidelines

Refer to these guidelines before downloading and using the templates in this toolkit.
Apple Pay Mark Guidelines

**Artwork**
The Apple Pay mark is available only in white with an outline rule. Other color options are not available. Do not alter the artwork in any way or create your own version of the Apple Pay mark. Use only the artwork provided by Apple.

**Background color**
A white or light background is preferred when displaying the Apple Pay mark. The mark can also appear on a marketing layout that features a dark background.

**Clear Space**
The minimum clear space for the mark is one quarter the height of the mark. Do not place graphics or typography in the clear space area.

**Apple Pay with other mobile payments**
To increase acceptance awareness, it is recommended that the Apple Pay mark be positioned first in an arrangement with other mobile payment marks.
Trademark and Legal Guidelines

Apple requirements

Apple Pay and the Apple Pay UI assets as described in these guidelines cannot be used in any manner that falsely suggests an association with Apple or is likely to reduce, diminish, or damage the goodwill, value, or reputation associated with Apple Pay, Apple products, or Apple itself.

Trademark attribution

Do not add a trademark symbol to the Apple Pay UI assets provided by Apple. In apps, include Apple trademark attributions wherever legal information is displayed.

In marketing communications, distributed only in the United States, the appropriate symbol (™, SM, or ®) must follow each Apple trademark the first time it is mentioned in marketing copy, for example:

Apple®
Apple Pay®
Apple Watch®
Face ID®
iPad®
iPhone®
Safari®
Touch ID®

Refer to the Apple Trademark List at apple.com/legal/intellectual-property/trademark/appletmlist.html for the correct trademark symbol.

In all regions, include the following credit line:

Apple, the Apple logo, Apple Pay, Apple Watch, Face ID, iPad, iPhone, iTunes, Mac, MacBook Pro, Safari, and Touch ID are trademarks of Apple Inc., registered in the U.S. and other countries. Touch Bar is a trademark of Apple Inc.

List only the specific Apple trademarks used in the text or audio in your marketing communications.

For more information about using Apple trademarks, visit "Guidelines for Using Apple Trademarks and Copyrights" at apple.com/legal/intellectual-property/guidelinesfor3rdparties.html

With Apple’s approval, a translation of the legal notice and credit line (but not the trademarks) can be used in materials distributed outside the U.S. Never translate an Apple trademark.

Notes

Trademark symbols do not need to be included in marketing headlines. The mark is only required the first time the name of a trademarked product appears in the text. If space is restricted, you can include the credit line on the link-to page.
Design Guidelines

**Typography**
You can update the template’s default font with your brand’s font. Add additional fonts using your brand’s typographic standards and hierarchy.

**Images**
Start with hi-resolution images in an RGB color profile. Final output for all digital assets should be 72 dpi or 144 dpi (@2x) for retina screens. Test and be sure images are sharp at final size.

**Bleed**
Extend all images and background flood colors beyond the bounds of the template to ensure an accurate output.

**Color**
All digital content should be set in an RGB color profile space for web. Refer to and use your brand’s RGB or HEX codes for color matching and accuracy.
**Messaging Guideline**

**Keep it clear and concise.**

All messaging should be simple, fun and relatable. To achieve this:

- Headlines should be purposeful and descriptive.
  
  Example: *Boost online sales with Apple Pay.*

- Subheads should be simple, informative, and to the point.
  
  Example: *Grow your business by making checkout easy with Apple Pay and [PSP].*

- Avoid overloading too many details at once, focus on one benefit.
  
  Example: *Increase conversion rates with Apple Pay.*

**Use real language.**

Don’t be too formal, but keep it professional by avoiding the use of jargon.

Example: *Apple Pay is accepted here.*

**Prioritize the role of Apple Pay.**

Whether talking about benefits, offers, or information, make sure the role of Apple Pay is at the forefront.

Example: *Grow your business faster with Apple Pay.*

**Make the next step clear.**

Include Call To Actions that are clear, concise, and let customers know exactly what to expect.

Example: *Get the guide.*
Additional Resources
FAQs

Example FAQs to share on your Apple Pay dedicated landing page or to provide to merchants. Use and create more as needed.

How do I start accepting Apple Pay?
To accept Apple Pay on the web or in app, go to [PSP to include instructions and link to its owned webpage with relevant information].

Are there additional fees to accept Apple Pay?
No. Apple doesn't charge any additional fees.

Where can I learn more about Apple Pay for merchants?
Check the Apple Pay webpage or contact merchant support. [PSP to link to its owned webpages with relevant information].

How can I communicate to my shoppers that my online store accepts Apple Pay?
Create campaigns to drive awareness and usage of Apple Pay with this marketing guide https://developer.apple.com/apple-pay/marketing/. It includes best practices and a link to download the Apple Pay mark.
