{ Swift Coding Club }

Starter Kit

Hello, World!

Starting a Swift Coding Club is a great way to build your network, learn app development, and prepare for career opportunities.

This starter kit includes resources to help you set up and promote your club. It complements the learning resources and club meeting plans that you can find by visiting Swift Coding Club.

Get started

- [Download](#) promotional assets, which include social media images, an invitation flyer, and a T-shirt template.

- Customize the promotional assets using SF Mono font. Download the SF Mono font [here](#).

- Do not alter or add logos to the images or graphics provided in this kit, unless otherwise noted.

Naming your club

Give your club a unique name by adding your institution name or a location that's meaningful to you.

Add it below the **{ Swift Coding Club }** title in SF Mono font.

CLUB LOGO

{ Swift Coding Club }

Add location here

Invitation flyer

Invite your friends and other students to join your Swift Coding Club.

Customize this editable flyer and send it via email or text, post it online, or print it.

Add your club location, contact info, and institution logo.
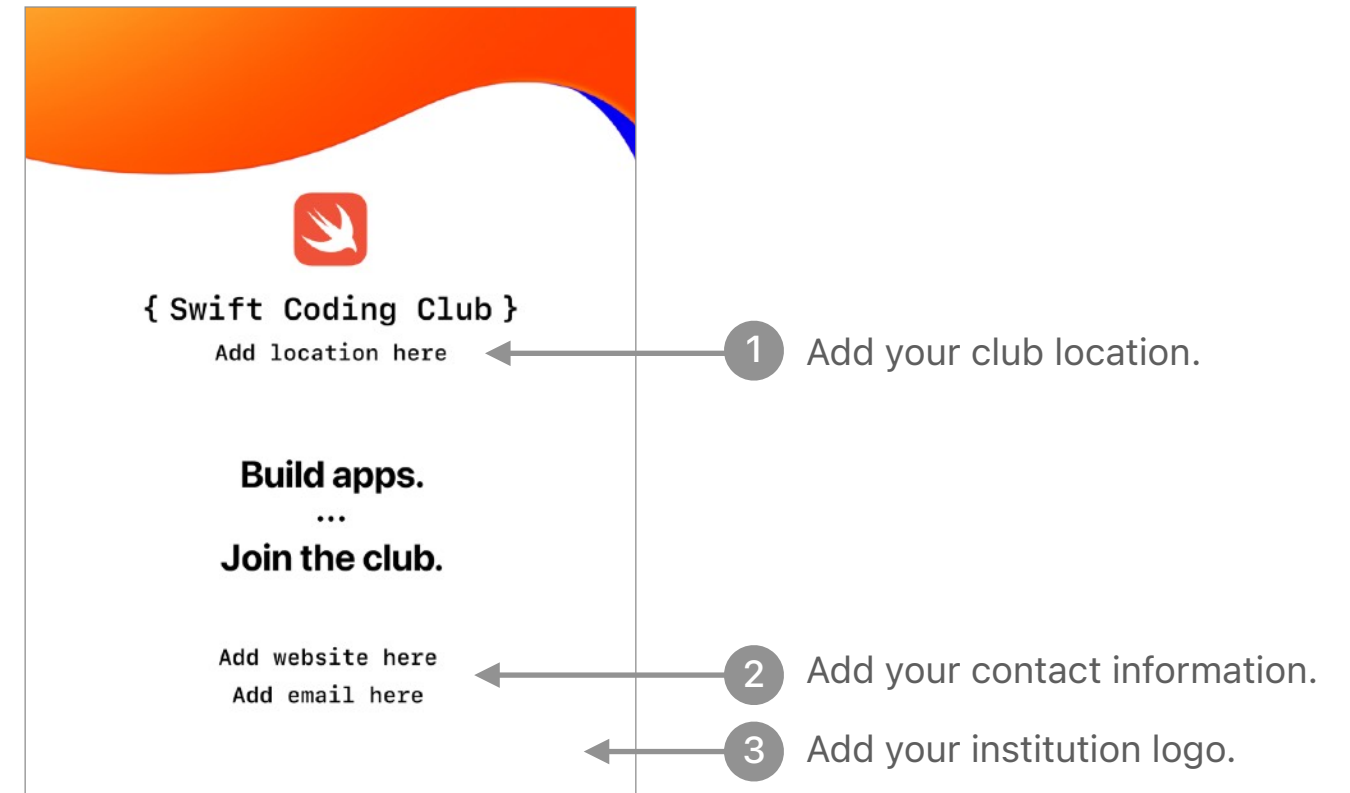

Using the Swift logo

You may want to create additional materials to help spread the word about your club. When appropriate, consider using the open-source Swift logo.

Download the Swift logo and see usage guidelines here.
